Re: U.S. Patent Application  
Serial No.: 09/840,080  
Inventor(s): James H. Johnson, John DiDomenico  
Title: "REMOTE VEHICLE EMISSION SENSING DEVICE WITH SINGLE DETECTOR"  
Filed: April 24, 2001

Dear Mr. Johnson,

As you know, Envirotest Systems Corp. (ESP) has filed a series of patent applications for which you are a named inventor.

In particular, the above-referenced patent application is a continuation of 09/648,534 filed on August 28, 2000 (now abandoned), which is a continuation of 09/480,688 filed on January 11, 2000 (now abandoned), which claims priority from provisional patent application 60/115,537 filed on January 12, 1999.

Moreover, the above-referenced patent application is identical to 09/648,534 and 09/480,688, meaning that all three applications comprise the same specification, drawings, and claims. A copy of the patent application that was filed for 09/840,080, 09/648,534, and 09/480,688 is enclosed.

Also enclosed are: (1) Joint Declaration and Power of Attorney; and (2) Assignment. At this time, we request that you execute the Declaration and Power of Attorney and Assignment documents, and return them to us as soon as possible for filing with the U.S. Patent and Trademark Office. For your convenience, I have enclosed a self-addressed Federal Express envelope for expeditious return.

Patent rights and the administrative procedures for securing patent rights are costly and time sensitive. Any delay on your part may generate additional expenses for ESP and could jeopardize the company's valuable patent rights. I also remind you of your continuing duty, pursuant to your former employment, to assist ESP in securing its rights. Accordingly, we request a response within ten (10) days from the date of this letter. If we receive no response from you within ten days we will consider it a refusal to sign.
